LIGHTING & ACCESSORIES

HALO and BIBA

  
**KENNETHCOBONPUE**

Welcome to the KENNETHCOBONPUE Lighting and Accessories Catalog.

Within these pages lies a world of whimsy, fun, and play to bring out the child in you. Inspired by ideas as diverse as our imagination takes us, our designers from around the world work with craftsmen to bring concepts to life. We use organic materials and environmentally friendly production processes, reflecting our concern for nature. Each unique piece is handmade and designed to bring wonder into your home.

The KENNETHCOBONPUE team is based in a small island in the Pacific called Cebu. We are blessed with lush landscape: radiant sun, clear seas, blue skies, and rolling mountains. It is a beautiful place to come home to after traveling through cosmopolitan centers of the world. Old traditions have survived here and the people convey a special warmth and friendliness. We collaborate with skilled craftsmen who take pride in their work. Many of the materials we use are sustainable, and we constantly strive to innovate their usage and extend their longevity. The specialized handwork that goes into each piece allows us to keep our energy consumption to a minimal.

At KENNETHCOBONPUE, we believe in the necessity of communing with nature and our fellow humans. We take our connection with nature and culture seriously. It is this feeling of being part of the world that we realize in our brand. It is our innate need to circulate around life, whether it be plants, animals, or other people.

Great expanse, openness,  
lightness, familiarity  
with the elements and seasons,  
reminders of things past,  
memories of people and places  
that give us comfort,  
awe, and wonder.

These emotions are evoked where we live.  
We want to share these same emotions with you through our designs.

*Kenneth Cobonpue*

Lolah collection.

# DESIGNERS

**KENNETH COBONPUE**

*Philippines*

Kenneth Cobonpue is a multi-awarded industrial designer and manufacturer from Cebu, Philippines. After finishing Industrial Design at the Pratt Institute in New York, he established his namesake brand KENNETHCOBONPUE upon returning home to Cebu in 1996. With his masterful way of integrating nature, traditional craft, and innovative technologies, he reveals new work each year in design shows from Milan to New York. While he continues to design, he is proactive in his advocacy of mentoring young designers and promoting South East Asian design to the world.

**CHRISTY MANGUERRA**

*Philippines*

With a strong grasp on design theory and practice, Christy has proven successful in her academic pursuits as a graduate with a Fine Arts degree from the University of the Philippines-Cebu and a Masters degree in Design Management from the University of New South Wales in Australia. Equipped with creative vision and experience, she continues to share her knowledge and expertise as a teacher of Industrial Design at the University of the Philippines-Cebu, and leads the product development team at KENNETHCOBONPUE.

**DANNY FANG**

*Netherlands / Hong Kong*

After graduating from the Academy of Eindhoven in Holland, Dutchman Danny Fang worked alongside Marcel Wanders and became a designer for Moooi. He then moved to Hong Kong where he set up Fang Studio Ltd. With the belief that “design needs to contribute to the world in an inspiring, comfortable, and attractive way,” Danny has a number of recognitions and awards to his name, including Perspective Magazine’s title as one of the “40 under 40” talented and young individuals who lead Asia’s design industry, as well as the prestigious Design for Asia Award.

**STANLEY RUIZ**

*Philippines*

Stanley Ruiz is an industrial designer currently based in Philippines / New York City. Graduating from the University of the Philippines-Diliman. With an affinity for combining traditional craft techniques with contemporary design aesthetics, he produces cleverly reinterpreted objects that display both foreign and familiar qualities. Often described as “transcultural” and “poetic,” Stanley has received numerous recognitions, including being hailed as one of the Avant Guardians of 2010 by the New York-based Surface Magazine; the Bronze Award at the A’Design Awards in Italy in 2013; an Outstanding Asia Talents award at the Bangkok International Gift Fair in 2014; and one of the six Rising Asian Talents in Maison&Objet Asia in Singapore in 2016.

**LEEROY NEW**

*Philippines*

Young, unpredictable, and exciting, Leeroy New lives up to his surname as an artist-designer whose practice overlaps and intersects with film, theater, product design, and fashion with his works having received numerous citations. The Manila-based and multi-faceted designer from General Santos is a graduate of the University of the Philippines College of Fine Arts, and the Philippine High School for the Arts, where he majored in Visual Arts. He is best known to have collaborated with Kermit Tesoro in designing the famous muscle dress that Lady Gaga wore in her music video, "Marry the Night." He also had works exhibited during the Singapore Biennale in 2008 and Fukuoka Asian Art Triennale in 2009.

**LUISA ROBINSON**

*Philippines*

Hailing from Manila where she studied Interior Design and Industrial Design, Luisa is an advocate of modern and clean design, integrating natural indigenous materials with modern technology and applications. A recipient of numerous Katha and Mugna awards for best product design and material innovation and a merit award for furniture design in Singapore, Luisa was honored as one of the Top Ten Design Iconoclasts by The Philippine School of Interior Design.

**HAE YOUNG YOON**

*South Korea*

Hae Young Yoon, the South Korean native from Seoul, studied Industrial Design at the University of the Philippines-Cebu under Kenneth Cobonpue and Christy Manguerra. The Cloud hanging lamp, which started as her student project at the age of 19, has become an increasingly popular accessory that reflects the vibrant imagination that comes with youth.
