# We Are NUDE

We live in a confusing world;  
too many choices, too many products,  
too much 'noise'.

But NUDE believes things can be  
different; the remedy is simple.

Simple is beautiful, pure, clear,  
transparent.  
Simple is useable, clean, uncluttered,  
practical.  
Simple is convenient, reliable,  
professional.

Simple is all of these things,  
and also the reason why things are  
so rarely simple.

NUDE considers actual and specific  
needs, then refines them to their  
essence. The final object is thus both  
easy to understand and work with.

NUDE believes less equals more, that  
form works best when it meets function.  
Where everything is appropriate in the  
right place at the right time, the right  
delivery for the right need.

NUDE also believes in an 360 degree  
approach, where the entire architecture of  
the dining experience is taken into account.  
Our products are thus created to enhance  
and enliven the atmosphere of dining,  
whether in a bar, bistro, or restaurant.

NUDE glassware is always fit for purpose.  
It is practical, sturdy, and usable.

We pay huge attention to our clients'  
needs, and never lose sight of the need for  
functionality.

This idea of practical and aesthetic  
integration is the guiding principle behind  
NUDE, and is reflected both in our mindset  
and our culture.

The result is our promise reflected in glass.

It is simple...

It is NUDE.

# The NUDE Style and Design Vision

## Contemporary

One of our missions is to design and create collections of lead-free\* crystal glass specifically manufactured for the hotel and restaurant industry. Our focus is on delivering elegant, practical, and relevant solutions for the modern dining and entertaining experience; nothing more, nothing less.

## Simple

NUDE believes simple is beautiful, that form is function, and less is more. This is equally true when it comes to the way we do business. We like to build straightforward, simple, and long-term relationships serving the needs and requirements of everyone involved.

## Sensuous

NUDE takes pleasure seriously and recognises the importance of establishing a dynamic and vibrant atmosphere. Attention to detail is paramount, yet at the same time there must always be room for people to feel comfortable, to breathe. NUDE glassware supports and embellishes rather than overwhelms, the immaculate crystal adding a sense of refinement and beauty to any environment.

## Experimental

NUDE is never afraid to take risks. We feel it is the only way of creating something inspirational. Individuality is important, and NUDE fearlessly investigates innovative ideas. We are constantly inquisitive and work hard to develop dynamic collaborations with artists and designers. At the same time, we make sure to retain a sense of simplicity and fun.

\*NUDE Lead-Free Crystal Glass falls in the category 3 according to the European Directive 69/493/EEC (Crystal Directive) with no intentionally added lead.

# A new era.... A new dining experience.

When it comes to precision glassware, NUDE offers a complete solution for the hospitality industry. Known for our design excellence, our portfolio delivers exceptional products. But we believe in simplicity. Nothing should detract from the skill of the chef or choice of the sommelier. The character of the restaurant should be enhanced by the elements it contains rather than dominated. NUDE glassware is therefore stunning yet subtle, made to blend perfectly with its surroundings, both honouring and adding to the ambience.

While working to deliver the perfect range of glassware, NUDE also focuses on practical requirements.

Our lead-free\* crystal is designed to marry excellence with dependability and practicality. This respect for the realities of the hospitality industry lies at the heart of our relationships with our business partners.

Our dedication and services  
to hotel and restaurant  
professionals

# NUDE X GIORGIO BARGIANI

NEW

I am Giorgio Bargiani, Assistant Director of Mixology at The Connaught, in London. As you might have caught, my last name, Bar-giani, and my family's hospitality business in Pisa, Italy, shaped my career. Passionate about hospitality, I worked in bars back home and then moved to the hôtellerie to sharpen my skills. I joined The Connaught in London in 2014, and that was very much a dream come true for me. While growing as a mixologist within the Connaught Bar family, I've always tried to find and share inspiration across different creative industries and countries, pushing the boundaries of my own craft and travelling the world. My partnership with NUDE now brings a natural extension of this vision, bringing to life my own glassware collection to inspire bartenders and drinkers around the world.

## Why NUDE?

Şişecam is one of the largest glass producers in the world and the world leader at glassware. So they are real industry experts and NUDE is its global design brand. In my profession, I always try to find new ways to create a personalised drinking experience for my guests and I found in NUDE the perfect partner in delivering delight. NUDE is a brand closely connected to the bar industry and caters to drinkers seeking more than just a drink. Like myself, they are after an experience.

## What's the inspiration behind the collection?

Versatility is the idea that guided me through the design of this collection. I wanted something that could adapt to various styles and tastes for personalised use by bartenders and drinkers. The idea being that elegance doesn't belong to just one specific style or context, but everyone can own it in their own way. It enhances the cocktail experience and suits both classic and contemporary styles, adding creativity and flexibility to any bar setting.

## What's unique about this collection?

From a style point of view, it suits both classic and contemporary styles of cocktails and venues. Speaking about its design, a key feature is the stem, which adds elegance and keeps drinks at the right temperature. The open lines and convex design enhance versatility, allowing the glasses to suit various cocktails and giving each piece a sense of fluidity.

## What's the impact of a glass on a cocktail?

Glassware design is very important in the cocktail world. We might not realise it but the glass that we hold influences the drinking experience in how it reflects or displays colours in different ways, and also influences temperature and taste. Its weight and feel add enjoyment, making the right glass an essential feature to elevate a cocktail to a real experience.

\*NUDE Lead-Free Crystal Glass falls in the category 3 according to the European Directive 69/493/EEC (Crystal Directive) with no intentionally added lead.

What if it was possible to create a glass so fine, so elegant, so exquisite, that it could almost make you feel as if it didn't exist?

That nothing came between you and the enjoyment of your favorite wine.

## It couldn't be done, surely?

Our designers at NUDE asked themselves the same question, but after a huge amount of work and dedication, they come up with the answer.

## We call it... Stem Zero

Stem Zero is a simple and elegant range of highly refined glassware made to satisfy the most discerning wine connoisseur.

The glass is so fine and so light that it defies belief. Yet it is strong and reliable, suiting all manner of occasions, both formal and informal.

Such is the remarkable quality of the glass that it creates a sensation of weightlessness, that the wine is being held by an invisible force, allowing you to savour the aroma and taste of wine in a way that, until now, was considered unimaginable.

The result is a glass that feels no more than a whisper, a kiss on the lips, encouraging you to enjoy wine to the full.

Some look tough but are so fragile.  
Some look fragile but tougher than  
any other...

The new Stem Zero with Ion Shielding Technology reinforces the previously delicate collection, making it twice as strong and flexible as other handmade glasses of similar thinness.

# HEPBURN

Simultaneously ethereal and worldly, soft and hard, simple but complex, subtle and straightforward, the 9 piece Hepburn barware collection embodies the same complexities. The cocktail shaker, mixing jug, martini glass, mixer glass, 'alchemy glass' (for the creation of cocktails with a more intense flavour) and tumbler feature the soft curves and clean lines of the leading lady, and set the scene for creating an experience instead of merely a drink.

# ISLANDS

Available in two sizes, the Islands collection was designed to be simple, modern, pure and supremely functional. Amplifying these qualities are the transparency and soft brilliance of the glass. With its slightly flared lip, the collection directs the spirit's flow to the tip of the tongue, emphasizing its smooth, silken feel in the mouth. Meanwhile, the broad bowl of the glass, tapering toward the top, concentrates the liquid's aroma and flavors, optimizing the sensory experience.

# ARCH

A sophisticated yet witty piece of craftsmanship, the Arch whisky bottle, a set of two glasses, and a matching bowl, are a group of perfectly balanced items that seem to defy logic but sit solidly on any surface. The subtle curvature of the glass base reflects the delightful swirl of a single malt, creating a sense of energy to an activity often perceived to be placid. The pieces have a subtle interlocking design that allows them to fit together imaginatively.

# WAYNE

The Wayne series consists of drinking glasses designed to underscore the aesthetic purity and radiance of crystalline glass. Each piece features a variety of reflections created by bold vertical scoring, equivalent to crisp pleats in a dress shirt. A horizontal channel at the bottom of each glass deepens the luminosity of each. Meanwhile, it clearly distinguishes the upper and lower elements of the objects and enriches the occasional overlay of cuts.

Fumo is a solid piece of crystal clear glass, heavy and demonstrative, smooth to the touch. It's a personal ashtray, perfectly sized to sit on an armrest or side table. The bowl of the tray itself precludes any chance of ash being spilled. The deep groove leading from the bowl to the edge, wide enough to sustain the most Robusto of cigars. For the dashing provocative woman, or the solidly stable man, the Fumo is a wonderful gift, and a beautiful adornment to any room.

# Lead-free\* crystal glass – its benefits.

As you know, design itself is never enough. The hospitality industry is built on usability, longevity, and efficiency. NUDE understands this and holds these values at a premium. There are specific benefits of using lead-free\* crystal glass, some practical, some aesthetic. Our machine-made crystal offers high durability thanks to its composition and manufacturing process. It has a ~99%\*\* transmission of light and the glass itself has a reflective index of >1,520, reducing chromatic aberration and intensifying its sparkle. The glass is also distinguished by its superior sound, delivering a sharper, more resonant ring. Our glassware can thus be appreciated by all four senses!

\*NUDE Lead-Free Crystal Glass falls in the category 3 according to the European Directive 69/493/EEC (Crystal Directive) with no intentionally added lead.

\*\*According to ISO IWA-8 "Tableware giftware jewellery luminaries – Glass clarity – Classification and test method"

# PROVEN BY STRENGTH TESTS

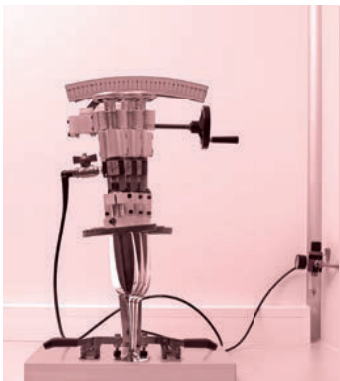

## Free Fall

NUDE lead-free\* crystal glasses are dropped free from a higher level on a metal plate.

## Impact

NUDE lead-free\* crystal glasses undergo hits one after another, with increasing impacts.

## Flexibility

NUDE lead-free\* crystal glasses are bent by exerting increasing strain through the stem.

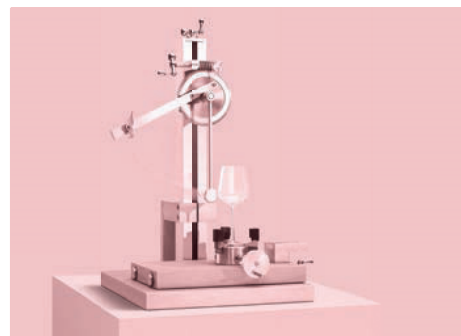

\*NUDE Lead-Free Crystal Glass falls in the category 3 according to the European Directive 69/493/EEC (Crystal Directive) with no intentionally added lead.

## Bowl Impact Test

35% stronger

Test is performed according to the standards below: DIN 52295 / Testing of glass – Pendulum impact test EN 12980:2000 / Materials and articles in contact with foodstuffs. Non-metallic articles for catering and industrial use. Method of test for the determination of impact resistance.

## Stem Impact Test

2x stronger

Test is performed according to the standards below: DIN 52295 / Testing of glass – Pendulum impact test EN 12980:2000 / Materials and articles in contact with foodstuffs. Non-metallic articles for catering and industrial use. Method of test for the determination of impact resistance.

## Free Fall Test

(In-house method):

Glass is released for a free fall from the height of 28 cm.

## Bending Test

(In house method): Up to 13°

Glass is bent at a certain angle from the top of the bowl, keeping the stem fixed.

## Dishwasher Safety Test

Up to 2,000 cycles
