Row & Sons is a trading name of SJH Row & Sons Limited

FOOD PREPARATION & PRESENTATION

PRICE GUIDE

History of Row & Sons

Row & Sons began life in Topsham, Devon in 1880. Built by Joshua Row, the company was formed to provide butchers with long lasting wooden chopping blocks from quality hardwood.

In 2014 the company became a member of the Partwell Group. As two companies built on family values, the Partwell Group and Row & Sons complement each other well. Both pride themselves on investing in their team and passing on skills from generation to generation.

Row & Sons take pleasure in providing innovation. However, this would not be possible without the knowledge of our highly skilled craftsmen. A mix of youth and experience, many of our team have spent more than 20 years with the business and take satisfaction in the knowledge that they are passing on their skills to a younger generation.

Food preparation and presentation

This brochure is split into two parts, back of house food preparation and front of house food presentation, for presenting your food in style.

As a British manufacturer with over 130 years of experience of providing food cutting surfaces, it has become Row & Sons speciality. The skills that were developed in the early years of the business have been refined and passed down from generation to generation.

Originally building butchers blocks, our product range has expanded and we are happy to present food preparation and food presentation surfaces.

Durable and tough, a robust chopping surface
Built using end grain wood

IROKO (I) OAK (O) WALNUT (W) MAPLE (M) BEECH (B)

Food Preparation

Providing hygienic food surface solutions since 1880

We can supply a range of boards in either wood or plastic. If you require a polyethylene cutting board take a look at our Rowplas range or if a heavy duty chopping board is your requirement, then our chef's butchers block is an optimum board for this.

SOLID END GRAIN CHEF'S BUTCHERS BLOCKS

CANADIAN ROCK MAPLE

Also available in other hardwoods shown on page 5. Contact our sales office for a quotation.
Please ADD identification letter after the Code No. to any order ie EG16164M for Maple.

"Beautifully designed, and lightweight for easy use. Row & Sons serving boards are manufactured to the highest quality."

Craig McAlpine,
Chef Director - The Yacht, London

For that little extra personal touch and a small additional charge, each board can be engraved with your logo or name permanently in the middle, corner or handle. Every board includes a juice groove and a circular recess for your sauce pot or ramekin can be machined at no extra cost. The complete solution!

rowandsons.co.uk

"Present food in your style with bespoke and custom made boards."

Collaborate with our skilled team of craftsmen to bring your brand to life. We can manufacture bespoke boards in most shapes, sizes and materials.

Enhance your customers dining experience with branded boards designed specifically for your outlet, within a budget that suits you.

For further information on our flexible, bespoke solutions, please contact the office on +44(0)1206 396688 or email info@rowandsons.co.uk
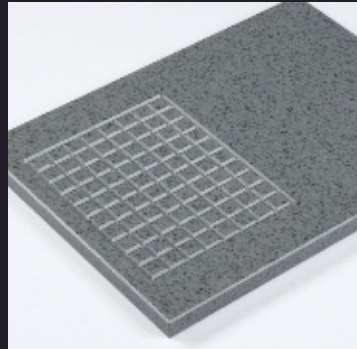

BESPOKE & CUSTOM MADE

Row & Sons specialise in bespoke production, both in hardwood and polyethylene.

We produce most items required for front of house service, deli counters and the professional kitchen, as well as highest quality for the custom designed domestic kitchen.

Our skilled craftsmen take pride in manufacturing your requirements to the high standards that have been associated with Row & Sons for more than 130 years.

For that little extra personal touch and a small additional charge, each board can be engraved with your logo or name permanently in the middle, corner or handle.

APEX is the ultimate food surface, a unique non cellular anti-microbial rubber compound material ideal for cutting, slicing and filleting.

• MicroStop™ anti-microbial rubber compound
• Non-absorbent to stains and odours
• Non-slip properties
• Knives stay sharp for longer
• The surface is less prone to wear
• NSF tested and certified
• FDA certified
